SEDIMENTARY GEOLOGY — VOLUME 79 — NOS. 1–4

Special Volume:

RAMPS AND REEFS

Edited by:

B.W. SELLWOOD

Postgraduate Research Institute for Sedimentology, University of Reading, Whiteknights, Reading, RG6 2AB (U.K.)

Contents

Preface 1

Carbonate ramp depositional systems
T.P. Burchette (Sunbury on Thames, U.K.) and V.P. Wright (Whiteknights, U.K.) 3

Ramp sedimentation in the Dinantian limestones of the Shannon Trough, Co. Limerick, Ireland
I.D. Somerville and P. Strogen (Dublin, Ireland) 59

Structurally controlled diagenesis of a carbonate ramp (Banff Formation, Alberta, Canada)
J.-Y.D. Chatellier (London, U.K.) 77

Mid-Dinantian Waulsortian buildups in the Dublin Basin, Ireland
I.D. Somerville, P. Strogen and G.Ll. Jones (Dublin, Ireland) 91

A Late Dinantian peloid cementstone–palaeoberesellid buildup from North Lancashire, England
A.D. Horbury (Uxbridge, U.K.) 117

Influence of original fabric on subsequent porosity evolution: an example from the Corallian (Upper Jurassic) reefal limestones, the Weald Basin, southern England
S.Q. Sun (London, U.K.), A.E. Fallick (Glasgow, U.K.) and B.P.J. Williams (Aberdeen, U.K.) 139

Sedimentology and depositional profile of a mid-Cretaceous shelf edge rudist reef complex, Nahal Ha'mearot, northwestern Israel
D.J. Ross (Cardiff, U.K.) 161

Bio-retexturing: early diagenetic fabric modifications in outer-ramp settings—a case study from the Oligo–Miocene of the Central Mediterranean
M. Pedley (Hull, U.K.) 173

Gravity slide and resedimentation processes in a Miocene carbonate ramp, Hyblean Plateau, southeastern Sicily
H.M. Pedley (Hull, U.K.), G. Cugno (Siracusa, Italy) and M. Grasso (Catania, Italy) 189

Late Miocene breccia of Menorca (Balearic Islands): a basis for the interpretation of a Neogene ramp deposit
A. Obrador (Bellaterra, Spain), L. Pomar (Palma de Mallorca, Spain) and C. Taberner (Barcelona, Spain) 203

Patterns of reef sedimentation and diagenesis in the Miocene of Cyprus
E.J. Follows (Edinburgh, U.K.) 225

Freshwater (phytoherm) reefs: the role of biofilms and their bearing on marine sedimentation
M. Pedley (Hull, U.K.) 255
